Modern spirituality and mysticism for a transforming world

Lightning Path Workbook Three – The Basics is the third in the powerful Lightning Path spiritual workbook series. In this book learn what you need to do to get yourself pointed in the right direction and moving forward on the Lightning Path of Awakening, Activation, and Ascension. Topics covered include alignment, spiritual realization, boundaries, visualization magic, and more. LP Workbook Three is an essential foundation stone in the LP temple of awakening, activation, and ascension. *Don't get left behind.* Read LP Workbook Three today.

The Lightning Path (or simply LP for short) is an intellectual, emotional, psychological, and spiritual system of awakening and empowerment (a “mystery school” if you like, but without all the useless mystery) designed to help you get off the sinking ship off the old world and make “the shift” into an awakened, activated, and ascended state of existence. It is sophisticated, straight forward, powerful, logical, grounded, rational, intellectually and metaphorically rigorous, politically sophisticated, empirically verifiable, authentic, and effective. It is accessible to everyone regardless of race, class, gender, or education. No requirements are set for entry and no judgments are made in passage.

Michael Sharp is a Sociologist with a specialization in psychology, religion, occult studies, social inequality, scholarly communication, and critical theory. After a dramatic crown chakra opening caused him to question the materialist foundation of modern science, he began exploring the spiritual and mystical side of life. He recognized early on the presence of elitism and patriarchy in the world's “secret” traditions and he began creating a new, open system of mysticism and personal development free of the established bias in “old energy” systems. The Lightning Path™ is the culmination of his research and work.
